

# *Print* **2** WALL

ANY DESIGN

ON ANY SURFACE

# Print **2** WALL

## Exclusivity for your wall

Innovative accents & sustainable branding  
for commercial spaces and public buildings.

### Individual designs on any type of surface

Plaster, wood, glass, concrete, even textile surfaces  
such as on acoustic panels can be creatively designed  
and sustainably "branded".

Thanks to its unique technology, Print2Wall makes  
any motif shine on almost any surface - and is particularly  
durable.

### Unlimited creativity for a lasting impression

Up to 3.7 m high and almost endlessly  
wide - limitless possibilities  
thanks to high-precision CMYK  
printing (plus white for special  
brilliance or dark background  
colors).

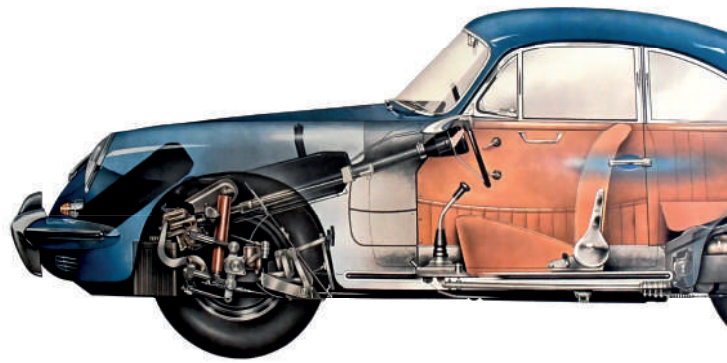

The innovative  
form of  
wall design.

# Compelling features, enhanced value

## Innovative branding

Set trends and accents in the office, gastronomy, hotel industry ...

## Long-lasting effect

Abrasion, scratch and UV-resistant, your design will be effective for many years.

## Flame-retardant ink

Our UV ink is flame retardant (EN 13501-1) and therefore ideal for public spaces.

## Eco-friendly technology

Solvent-free UV inks containing no volatile compounds.

## Vandal-proof decoration

Unlike adhesive designs and mounted artwork, wall prints cannot be removed and are theft-proof.

State of the Art made in Germany.

Our reliable wall printer from German development and production ensures the highest quality.

## Print 2 WALL
